

Loris Middle School
Providing Timely Responses to Parents

1. The “Lion Lines” school newsletter is sent home weekly. There is a comment section for parents to make suggestions; these comments may be returned to their child’s advisory teacher.
2. Parents may contact administration in person or by phone with any suggestions.
3. Staff members may contact parents by phone, emails, or visits to the school for suggestions and how the suggestions could meet the needs of our school as well as improve the Loris Middle School community.
4. Parents may discuss with school administration and School Improvement Council/Title One Planning team members any suggestions they may have that will better the social, physical, and emotional well being of Loris Middle School students and staff.
5. Links will be provided on the school website for easy access to make comments.
6. Any changes and/or reminders will be sent via the phone system and social media.
7. Phone calls from parents will be returned within 24 hours. Most calls will be returned the same day.

Outcome:

Administration and School Improvement Council/Title One Planning team members will meet regularly to discuss stakeholder issues. Updates for parents are given via webpage, social media, phone system, and newsletter communications.
