

Discipline

Student behavior should reflect respect towards faculty/staff, guests, peers, and himself/herself at all times. Students are required to come to classes prepared. Students are required to complete all assigned tasks given to them by teachers and must not disrupt the learning environment for students and/or the teacher. The teacher will either discipline disruptive students, or if the problem is serious, the teacher will call for administrative assistance. Sleeping in class is prohibited. A student removal from class could result in parent contact and student removal from school.

Every situation involving discipline will be reviewed on a case-by-case basis and appropriate consequences will be assessed.

STUDENTS ARE EXPECTED TO FOLLOW ALL POLICIES AND PROCEDURES OUTLINED IN THE HCS PARENT STUDENT HANDBOOK.

All rules are subject to change in accordance with state, district, and/or school policies and procedures and are expected to be followed at any school-sponsored event - home or away.

Substitutes: Substitute teachers are to be afforded the same respect as regular classroom teachers. It is the student's responsibility to treat a substitute with the utmost respect and courtesy. Disrespect toward any substitutes will be regarded as a **serious** discipline infraction.
